WOMEN IN FILM

The roles and contributions of women throughout the history of film

Since the advent of the moving image, women have made significant contributions both in front of and behind the camera. At every point in the evolution of the film industry, women have offered their guidance and insight. Yet even today their role is often obscured in a male dominated industry. *Do women in film have to mediate their careers through a male figure? How have women contributed to film outside the patriarchal establishment?*

Join us for a behind-the-scenes exploration as the 2006 4th Annual Queens Film Festival presents, Women in Film on Sunday, November 19th at 3 pm. Held at O.W.N. Charter School, 36-12 36th Street at 35th Avenue. Single tickets are available for this exclusive event at www.queensfilmfestival.com, or you may purchase the inclusive 5-day festival pass.

A panel of well-known industry insiders will visit lively topics to discuss the roles and contributions of women throughout the history of film, as well as the obstacles they overcame to find their voice.

With much gratitude, the Queens International Film Festival is pleased to announce the Official 2006 Panel!
